Director,
Tucson Pima Water Study
PO Box 2344
Tucson, Arizona

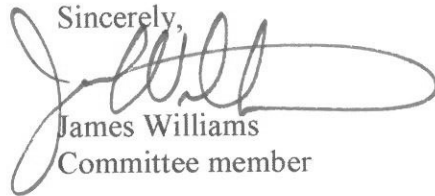

Dear Sir:

The Government Affairs Committee of Sun City Vistoso, Oro Valley, has been following your organization's emails regarding a study of water resources for the city and county. We understand that you will have a report for public review in January.

Would someone from your group be willing to present this report to the Sun City Vistoso community? We often hold one hour forums on weekday afternoons. We regularly get 30-60 persons in attendance, and many of our residents are concerned about the water availability issue.

Please let me know if you or someone else in your committee would be interested.
Thank you.

Sincerely,

James Williams
Committee member
